Food strategy • Meal plans • Metabolism • Tracking chart

Important Disclaimer

- This guide is educational only and does not replace medical advice, diagnosis, or treatment. Consult a qualified professional before making major dietary or supplement changes, especially if pregnant, nursing, taking medicines, or managing a medical condition.

Why Natural Weight Loss Works

- Supports satiety, muscle retention, and energy balance.
- Avoids rebound from unsustainable restriction.
- Builds habits you can maintain long term.

Calories vs Nutrition

- Not all calories affect hunger equally.
- Protein and fiber improve satiety.
- Nutrient density matters for adherence and health.

Green tea

- How it supports weight goals
