How to Use This Appendix

Extended Study Material

The following sections were prepared by Mubashir Mehdi for LifeWithBooks to supplement this guide with additional explanations, examples and practice. Work through them after reading the main chapters.

A Course Built for Real Communication

English Unlimited is a six-level adult English course developed by Cambridge University Press. Unlike courses that focus primarily on grammar drills, English Unlimited is built around practical, real-world communication goals. Every lesson connects language to a genuine communicative purpose - ordering at a restaurant, negotiating at work, discussing news, or navigating social situations.

The course covers CEFR levels from Starter (A1) through to Advanced (C1), with each level designed to take approximately 60-90 hours of classroom instruction plus self-study time.

What Each Unit Covers

Each unit is organized around a communicative topic and integrates all four language skills: listening, speaking, reading and writing. Grammar is presented in context rather than in isolation, so learners see how structures work in authentic situations before practising them. Vocabulary sections build topical word sets that learners can use immediately.

A distinctive feature is the 'Across Cultures' page in every unit, which develops intercultural awareness and prepares learners for communication with speakers from different backgrounds - not just native English speakers.

Self-Study and Classroom Materials

The course includes a comprehensive workbook with additional grammar, vocabulary and skills practice for homework or independent study. Video material brings real-world English into the classroom, and teacher's resources provide photocopiable activities, tests and detailed lesson plans. The self-study pack with DVD-ROM allows learners to review and extend their learning outside class.
